

A lightweight UHP piercing gun. Quick-connects directly to ultra-high pressure skid systems.

Product Summary

- Fast & Easy Deployment
- Quick Change Abrasive Magazine
- Complete, Ready to Operate upon Delivery
- Industry Leading Warranty with Unsurpassed Support
- Designed & Manufactured in the USA

Description

Quickly pierce vehicles, concrete block walls, steel, or any known construction material and get UHP water into hard to reach fires- without adding oxygen. The gun is complete and ready to operate with no additional components. Simply connect directly to an existing UHP skid. The compact tool easily fits in any truck cabinet and includes a durable custom case. Gun magazine holds the abrasive and is easily refillable in the field.

Details

Dimensions	45.5 x 11 x 2.6 inches
Weight	15 lbs (with loaded abrasive magazine)
Requirements	10 - 20 GPM Water Input 1200 - 2000 PSI Water Input

Purchase Specifications

- An abrasive waterjet piercing gun for ultra-high-pressure (UHP) firefighting
- Consists of a handheld gun, refillable abrasive magazine and custom case
- No electronics or wireless devices
- Button for instant on/off abrasive
- Mixing takes place at the end of the gun barrel and does not require abrasive to be "pushed", as a high-speed wear element, through any hose or extremity
- Abrasive material is housed in a quick-change magazine. The magazine is integral to the gun shoulder-stock
- Covered by a free five year warranty.
